## Education

---

- **Vasantdada Patil Pratishthan's College of Engineering** Mumbai, India  
*Bachelor of Engineering - Computer Engineering 8.78 cgpa* December 2021 - Present  
**Courses:** Data Structures, Operating Systems, Analysis Of Algorithms, Databases, Mathematics

## Experience

---

- **Full Stack Developer Intern - Mernix Consultancy** WFH  
*(Part-time)* July 24 - Present
  - **Responsibility:** Created websites with Reactjs and Nodejs+EJs .Developed robust RESTful APIs using Mongodb and MySQL for CRUD operations and dynamic content rendering.
  - **Tech Stack:** Reactjs,Ejs,Javascript, Css, Html, Mongoose, MySql.

## Technical Skills

---

- **Programming Languages:** C/C++,Java,Python, JavaScript, Php
- **Frontend Development:** React, Javascript, Css, Html5,
- **Libraries/Frameworks:** React.js,Bootstrap, Tailwindcss, Express.js, antd
- **Database Management:** SQL, MongoDB
- **Tools:** VS Code, Git, GitHub,MySQL
- **Platform:** Vercel, Netlify, Github Pages

## Projects

---

- **FireChat:** React Firebase **Github** **Livedemo**
  - Developed a chat application with user authentication (login/register), real-time messaging, and document sharing.
  - Utilized Firebase Authentication and Firestore for backend services.
  - Focused on a user-friendly interface, high performance, and security.**Tech Stack :** React.js, Firebase, SaaS
- **ExpenseTracker:** MERN **Github** **Livedemo**
  - Developed an expense tracker app with CRUD operations, allowing users to manage their expenses efficiently.
  - Enabled expense tracking and visualization in both tabular and analytical formats.
  - Implemented user authentication with login and registration features, focusing on a seamless user experience and robust performance.**Tech Stack :** React.js, Nodejs, Expressjs,Mongodb

## Other Experience

---

- **PARTICIPATED IN Algorithm 7.0 HACKATHON (Tradeup):**
  - secured in second round
